extra cc. herewith

Delynn E Anderson
Lt Col U S Air Force
Pentagon

Sir:

At this belated date I write to thank you kindly for your good letter of 7 MAR 1955. Yours was in response to mine of 31 January 1955, to the Air Adjutant General, requesting permission to land on T-3. As you will know, we did not do so.

This letter is re two other points, unrelated to above.

Point 1. On the 17 APR 1958, while on duty as hydrographer on the Colorado River (Ariz), for the U S Geological Survey, at the mouth of Bright Angel Creek in the mile deep Grand Canyon, the following quoted notation was made, in longhand, by myself.

" ? Meteor ? 17 Apr. 9:05 PM
Most brilliant one (Meteorite) I've seen in a lifetime---

" More bright-white than any other coloration. (Perhaps, trace of pinkish red)

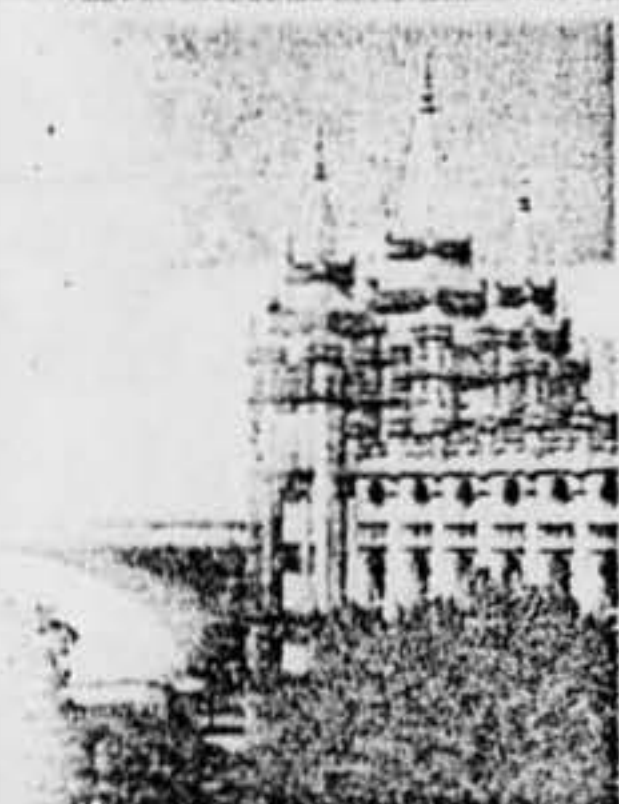

" Obs was attracted by great or sudden brilliance. Noted to move - as if from near due West to about SWbyW (Falling at app. 15 to 20 degree angle to horizon.) Was perhaps 12 to 15° angle above Grand Canyon Rim. (Making it about 45 to 55° UP from our plane-) (HLA called quick attention to the fireball to KHM, who saw it a portion of seconds (1 or 2) at its most brilliant).

" Completely burned out - very shortly. "

Did we observe an oxidizing meteor, or satellite section? If there be value in verification, write to:- Kathryn Maureen Henderson, who is secretary to Secretary of State for Canada.

Point 2 About 6 weeks ago, [redacted], US Mail Carrier - Rich-
field to Torrey, Utah noted a [redacted] moving in the atmosphere.
It was cylindrical, executing right-angle turns. No sign of en-
gine or sound. No vapor trail. Seen toward the sun, it was dark
or black. Two women observed with [redacted] Air Force,
World War Two. - I date from First Army Air Service, NWI.
(Enlisted man - Serial #67847.) [redacted] [redacted]

"The Intermountain Empire is Scenic & ..."

5 January 1959

Dear Mr. [REDACTED]:

The Air Technical Intelligence Center agrees that your sighting of 17 April 1958 was a fireball.

In regard to Mr. [REDACTED] sighting of a cylindrical object executing right-angle turns, I am inclosing United States Air Force Technical Information Sheet which should be completed by Mr. [REDACTED] and submitted to the Air Technical Intelligence Center, Wright-Patterson Air Force Base, Dayton, Ohio. When the Center has complete information with regard to Mr. [REDACTED] sighting, they will attempt to analyse and/or evaluate the case.

Sincerely,

Incl
